Summary

Fullstack Engineer with 2+ years of hands-on experience building responsive, high-performance web applications using React, Next.js, NestJS, and Node.js. Strong focus on clean architecture, reusable components, and scalable systems, with experience collaborating in remote, cross-functional teams.

Technical Skills

Languages

TypeScript, JavaScript

Frontend

React Js, Next Js, Angular Js, Tailwind CSS, Responsive Design, Design System, Component Architecture, State management

Tools & Platform

Git, GitHub, Visual Studio, Cursor AI, Postman, Jest, ShadCN UI, ChatGPT, React Query, Ether.js

Development Practices

Version Control (Git), API Integration, Unit Testing, Type Safety, Clean Code Principles (KISS, DRY)

Backend

Nest Js, Nodes Js, GraphQL, REST API Development, Better-auth, AI Integration, Embedded AI, Vector

Database & ORM

PostgreSQL, TypeORM, Drizzle ORM, Database Design

Cloud/Deployment

Vercel, Railway, Neon, Aws S3

Experience

Affirmdata

08/2025 - 10/2025

Software Developer | Contract | United States (remote)

- Migrated the platform from Bubble to Next.js and Tailwind CSS, improving scalability, performance, and long-term maintainability.
- Developed timesheet tracking, job management, and invoicing features for freelancers and employers.
- Collaborated with the team on both frontend and backend development.
- Integrated Zustand for efficient and scalable state management.
- Built reusable components and implemented lazy loading to enhance performance.
- Implemented infinite scrolling and skeleton loading for smoother user experience.
- Configured and integrated NextIntl to enable locale-based internationalization.
- Utilized TypeScript throughout development for type safety, scalability, and improved documentation.

Mobii PH

07/2024 - 08/2025

Full Stack Engineer | Fulltime | Philippines (remote)

- Developed and maintained a Web3-enabled social and trading platform using Next.js, Tailwind CSS, and NestJS.
- Built blockchain-integrated features using Ethers.js for transactions, rewards, and balance retrieval.
- Implemented scalable frontend architecture and reusable components.
- Optimized data fetching using React Query for caching and revalidation.
- Developed a decentralized SPA (Mini dApp) serving 200k+ users, focusing on performance and scalability.
- Built high-conversion marketing and waitlist landing pages with responsive UI and analytics integration.

1TechHub

11/2023 - 08/2025

Frontend Developer | Part time | Australia (remote)

- Developed internal dashboards and productivity tools using Next.js and Tailwind CSS.
- Translated Figma designs into production-ready UI components.
- Implemented CRUD features, pagination, filtering, and API integrations.
- Integrated AI-powered content features.
- Collaborated closely with the team lead on planning and implementation.

Training & Courses

CSS, Bootstrap And JavaScript And Python Stack Course

Completed a comprehensive course on Udemy, covering CSS, Bootstrap, JavaScript, and the Python stack, 2023

Front End Development Libraries

Learned the basic fundamentals of frontend development with its libraries, 2023

Responsive Web Design

Learned the responsive design with CSS using media query, 2023
